ALKALI-RESISTANT BED MATERIAL GR- GRANULI™

Product description

Thanks to its composition and high melting point, alkali-resistant GR-Granuli is suitable for power plants where difficult materials, such as glues, are incinerated, or where a very high bed temperature is required. The melting point of GR-Granuli is over +1400°C.

Grain size

- Standard grain size 0.5–1.5 mm
- Other fractions available where required

Packages

- 1 ton big bag
- In bulk

Waste handling

Storage and handling of waste

See the separate storage and disposal instructions <https://www.fescon.fi/en/material-bank>
